## Scribe Insight 7.7

**⚠ ATTENTION!** Before upgrading from a previous version of Insight, Scribe strongly recommends that you perform a full backup of your old execution and transaction error history. The Insight 7.7 upgrade process makes several modifications to tables in the database with very large numbers of records in these tables.

**⚠** Please review the [Release Notes](#) and click [here](#) to download the [ScribeMaintenance.sql](#), then perform the specified upgrading.
